GOALS

Big goals need powerful tools.

As an experienced Girl Scout, you're ready for a new twist on the Cookie Activity. The Cookie Club is a fun new Web site that helps you make your big goals a reality. When you join the Cookie Club, you tap into a powerful system of goal-setting. Track your sales with an interactive goal tracker, and see the cookie packages stack up. You'll become a professional as you organize your customer contacts in cookie business-style. There are lots of other fun features and selling tips, too. Ready to check it out?

Join by following these easy steps.

Step 1: Return signed permission form to receive your girl ID and password.

Cookie Club membership begins with your adult volunteer. She will guide your troop toward setting an exciting goal. And then she will set up your Cookie Club account.

Your job is to ask your parent or guardian to read and sign the parent/guardian permission form. When you've returned this form, you will receive your girl ID and password.

Step 2: Go online to join the Cookie Club.

Visit **www.littlebrownie.com** and click on the Cookie Club area. Now enter your girl ID and password. If it's your first visit, you'll be prompted to become Safety Certified. If you know your safety rules, you'll be certified in no time. As you know, it's best to have an adult around when you're on the internet.

Now you're a Cookie Club member! From your personal page, you can see the goal you're working toward. You can enter sales and watch the goal-tracker rise. Explore all the features — you might want to change your goal, learn selling tips, track customer contacts or set some personal goals for yourself.

Step 3: Keep up the Cookie Club energy!

Remember to check back often to enter your sales and see your goal-tracker rise. At troop meetings, you will learn how the whole group is doing.

Is the Cookie Club safe?

Yes. And it is approved by Girl Scouts of the USA. All girls must turn in a signed parent permission form before they can access the password-protected site. All girls are required to become Safety Certified. Girls will not sell cookies online or reveal personal information.

You're just a few clicks away from an all-new way for experienced Girl Scouts to track and reach high goals. Let's go!

TIMES CHANGE. OUR COMMITMENT LASTS. Little Brownie® Bakers
