

## Hiking

**Council Approval:** May be required if travelling - [Troop Trip Travel Form may need to be completed.](#)

**Training is required for this activity.** One Adult Volunteer present at this activity must have completed Beyond the Troop Meeting training.

**Activity Permitted For:** D B J C S A

### About Hiking

Unlike short walks, hiking may involve lengthy, back-country walking trips and often requires sturdy boots to provide traction on rocks and uneven trail beds. When practicing Leave No Trace skills while hiking, it's important for hikers to leave trails as—or better than—they found them. Although the action of one hiker may not strongly affect the environment, the effects of large groups of hikers can degrade trails.

Hiking is the ideal opportunity for girls to learn and practice map and compass skills. Before heading out on a lengthy hike, learn how to read a map and use a compass. Look at a map to understand where you started and where you plan to finish. You can always check with your local, state, or national park for interesting and exciting trail ideas.

**Note:** For overnight hiking experiences, follow the guidance in the “Backpacking” or “Travel and Camping” safety activity checkpoints.

### Include Girls with Disabilities

Talk to girls with disabilities and their caregivers and ask about needs and accommodations. If visiting a national park, contact the park in advance to ask about accommodating people with disabilities.

See [Disabled Sports USA](#) to find out about hiking for people of all abilities.

### Equity

In addition to physical and social-emotional disabilities consider the history, culture, and past experiences of the girls in your troop that could affect a girl's ability to equally participate in an activity. Work with girls and families to understand how an activity is perceived. Ensure that all girls and their families feel comfortable that they have

access to whatever is needed to fully participate such as the proper equipment, prior experiences and skills needed to enjoy the activity.

## **Safety Activity Checkpoints**

**Standard Safety Guidelines.** Refer to the “Standard Safety Guidelines” section (p. 4 – 22) at the top of Safety Activity Checkpoints. These standard safety guidelines apply to all Girl Scout gatherings and activities. When the adult-to-girl ratio, or other safety parameters, are stricter for a specific activity than in the Standard Safety Guidelines always follow the stricter parameters in the activity chapter.

**COVID-19 Guidelines.** Review the “Coronavirus Safety in Girl Scouts” section under the “Standard Safety Guidelines” (p. 4 – 22) section and be certain to consult your council’s specific COVID-19 guidance [here](#). When applicable, always call ahead to the vendor, property or facility involved to check for their COVID-19 safety requirements as you prepare to take girls for this activity.

**Emergency Action Plan (EAP).** Review and document your Emergency Action Plan (EAP) ahead of time before taking girls out for this activity. Think through scenarios of what can go wrong such as an accident, physical injury to a girl or adult, missing girl, or sudden illness.

**Girls should plan the activity.** Encourage girls to plan routes, activities, and guidelines for dealing with problems that may arise with other groups of hikers.

**Prompt girls to share resources.** Encourage girls to distribute a list of hiking gear and supplies, and to determine which resources can be shared. Be sure girls and adults have a good understanding of how to practice the Leave No Trace principles on the hike.

**Choose an appropriate hiking route.** Terrain, mileage, and hiking time should be known to the hikers in advance. Hikes are restricted to a reasonable length as determined by age, level of experience, nature of the terrain, physical condition of the hikers, disabilities, weather conditions, and time of day. The hiking pace must always accommodate the slowest hiker.

**Assess safety of hiking routes.** The route needs to be known to at least one of the adults or a report is obtained in advance to assess potential hazards, such as poisonous plants, dangerous animals, unsafe drinking water, cliffs, and drop-offs. Ensure that a land-management or similar agency is contacted during the trip planning stage to determine available routes, recommended group size, water quantity and quality, and which permits are needed.

**Ensure that hikers have a comprehensive understanding of the trip.** Group members are trained to be observant of the route, surroundings, and fatigue of individuals. Instruction is given on the safety rules for hiking, such as staying together in a group, recognizing poisonous plants and biting or stinging insects and ticks, respecting wild animals, practicing Leave No Trace, and behaving effectively in emergencies. Ensure that girls, based on their level, know how to read maps, use a compass, navigate a route, and estimate distance.

**Respect the environment and keep trails clean.** Use the principles of Leave No Trace. Carry out food and all trash. Hike on established trails. Do not remove natural materials, such as leaves or branches. In addition, avoid eating wild foods, walking on or uprooting plants, interfering with or feeding wild animals, and littering.

**Practice safe hiking.** Instructions should be given on the safety rules for hiking, which include forbidding hiking off the trail and after dusk. Girls should stay on the pathway to avoid trampling trailside plants and causing erosion. In addition, be sure to take adequate rest periods with time to replenish fluids and eat high-energy food (such as fruits and nuts). Girls must take proper precautions in areas where poisonous plants, snakes, or ticks are prevalent.

## **Safety Gear**

The gear you will need will depend on the length of your trip, the location, and weather.

- A water bottle or hydration pack with enough water for each girl for the length of the hike
- Sturdy footwear based on the type of trails and length of the hike.
- Map and compass or GPS device
- Flashlight, whistle, pocket-knife.
- A working cell phone held by designated adult for emergencies.
- An emergency survival kit
