

Subject: Update to 2023 Cookie Program

Message from Girl Scouts of the USA

National supply chain and workforce disruptions affecting one of our bakers will impact some of our councils this cookie season. Shipping options and delivery timing will vary by council. Please check with your local council and/or a Girl Scout you know or use our cookie finder at [girlscoutcookies.org](https://girlscoutcookies.org) to find and purchase cookies.

Cookie sales are critical to Girl Scout programs, and we are working hard with our bakers to ensure a successful selling season for our girls. All proceeds stay with the local council and troop to power amazing experiences year-round for Girl Scouts.

How does this affect Girl Scouts of Northern Illinois?

As of Monday, GSNI received final messaging and information regarding alterations to the 2023 Cookie Program. The GSNI 2023 Cookie Program will start as planned on Wednesday, December 14, with a few [schedule changes](#). Customers will be able to place Girl Delivery and donation orders in Digital Cookie starting on Thursday, December 15. Digital Cookie shipped orders will not be able to be placed until Monday, February 27, 2023. This delay in Digital Cookie shipped orders will also delay the availability to purchase Raspberry Rally cookies. These changes will allow Little Brownie Bakers (LBB) to better supply councils with the cookies needed in-hand for initial orders, cupboards, and cookie booths. **These date changes are nationwide for all LBB councils, including Greater Chicago Northwest Indiana council.**

Additional details and updates will be posted at [www.girlscoutsni.org/cookieresources](https://www.girlscoutsni.org/cookieresources). Thank you for your patience and understanding as together we navigate the 2023 Cookie Program and optimize opportunities for our Girl Scouts! For questions, please contact [cookies4you@girlscoutsni.org](mailto:cookies4you@girlscoutsni.org).

Your GSNI Product Program Team,  
Anna, Michele, Debbie, and Becky
